

# Quartz Heating Element

**LONG-LIFE, SNAP-IN  
REPLACEMENT HEATING ELEMENT**

**TWO-YEAR WARRANTY**

FOR MARVIN® ELECTRIC HEATERS  
MODELS 2060, 2260, 5060, 7060, 7260, 7860

## DIRECTIONS

### 1. OPEN GUARD

**CAUTION:** Unplug heater and allow to cool before attempting replacement of heating element!

**Models 2060, 2260**  
Locate slots on the right side of the heater. Note: If a screw is installed in one of the slots, remove it. Unlock the guard by forcefully inserting the electrical plug into the slots. Once the guard is unlocked it will be necessary to remove the plug from the slots to open the guard.

**Models 5060, 7860**  
Insert electrical plug into slots at the bottom of the guard. This will unlock the guard and allow it to swing open.

**Model 7060, 7260**  
Remove screw located at the bottom center portion of the guard. This will allow the guard to swing open.

### 2. REMOVE OLD ELEMENT (BE SURE ELEMENT HAS COOLED BEFORE PERFORMING THIS STEP)

**Models 2060, 2260**  
Grasp element near the top of the heater and apply sufficient downward pressure to disengage and remove the element from the upper socket.

**Models 5060, 7860, 7060, 7260**  
*Note: For easier removal and installation of element, lay heater on its back with the guard facing up.*

Grasp element near the small ceramic. Push the element into the large ceramic with enough pressure to disengage the element from the small ceramic and remove it from the heater.

### 3. INSTALL NEW ELEMENT

**Models 2060, 2260**  
Insert either end of the element into the bottom socket. While applying downward pressure, guide other end of element into corresponding socket at the top of the heater.

**Models 5060, 7860, 7060, 7260**  
Insert either end of the element into the large ceramic. Push the element into the large ceramic with enough pressure to allow the other end of the element to be inserted into the small ceramic.

**4. CLOSE GUARD AND BE SURE IT IS LOCKED.**  
FOR MODEL 7060 & 7260,  
CLOSE GUARD AND RE-INSTALL SCREW.

**NOTE:** This element is intended for use in heaters manufactured after Jan 1, 2000. To obtain replacement elements for older heater models, contact W.B. Marvin at 1-800-733-0706, or [www.wbmarvin.com](http://www.wbmarvin.com)
